SUMMARY

MERN Stack Developer and Computer Science Engineering graduate (2025) seeking an entry-level Full Stack Developer role in a global IT services organization. Hands-on experience building full-stack web applications using MongoDB, Express.js, React.js, and Node.js, with expertise in RESTful API development, JavaScript (ES6+), JWT authentication, and role-based access control (RBAC). Skilled in developing responsive and reusable React.js interfaces, designing MongoDB and MySQL databases, and implementing real-time features using Socket.IO and WebSockets. Proficient in Git, Docker, Postman, and cloud deployment using AWS, Vercel, and Render, with exposure to CI/CD pipelines using GitHub Actions. Strong foundation in Data Structures and Algorithms, Object-Oriented Programming, DBMS, Computer Networks, Agile/Scrum, and SDLC.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), SQL, HTML5, CSS3
- **Frontend:** React.js, Redux, React Router, Tailwind CSS, Responsive Web Design
- **Backend:** Node.js, Express.js, RESTful API Development, REST APIs, CRUD Operations, Middleware, Request Validation, Error Handling
- **Databases:** MongoDB, MongoDB Atlas, Mongoose, MySQL, PostgreSQL (Basics), Database Design, Schema Modeling
- **Authentication and Security:** JWT Authentication, Role-Based Access Control (RBAC), Password Hashing, Route Authorization, API Security
- **Real-Time Technologies:** Socket.IO, WebSockets, Event-Driven Architecture
- **DevOps and Cloud:** Docker, Git, GitHub, GitHub Actions, CI/CD Pipelines, AWS S3, Vercel, Render
- **Testing and Debugging:** Jest, Unit Testing, Postman, API Testing, Application Debugging, GitHub Copilot
- **Core Fundamentals:** Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), DBMS, Computer Networks, Agile/Scrum, SDLC

PROJECTS

Smart Logistics Tracking System

Feb 2026

Tech Stack: MongoDB, Mongoose, Express.js, React.js, Node.js, Redux

- Architected a full-stack logistics application covering 5 operational workflows: shipment creation, driver assignment, delivery tracking, status updates, and order management.
- Modeled 4 core entities (users, drivers, shipments, deliveries) using MongoDB and Mongoose schemas with role-based access control.
- Delivered role-specific interfaces for administrators and drivers while synchronizing shipment information between React views and Express.js backend services.

E-Commerce Web Application

Oct 2025

Tech Stack: MongoDB, Express.js, React.js, Node.js, Redux, JWT

- Built a full-stack shopping platform supporting 5 customer workflows: registration, product discovery, cart management, order placement, and account access.
- Crafted reusable React components and centralized application state with Redux to synchronize product, cart, order, and authentication data.
- Structured 4 MongoDB collections (users, products, carts, orders) with schema validation and centralized exception handling.

Cloud-Based Media File Storage Service

Aug 2025

Tech Stack: MongoDB, Express.js, React.js, Node.js, JWT, AWS S3

- Built a multi-user digital asset platform with 6 primary capabilities: file upload, download, folder organization, search, sharing controls, and user-specific workspaces.
- Integrated reusable React components with Express.js endpoints and AWS S3 to maintain consistent data synchronization across file and folder operations.
- Enforced secure resource access through JWT verification, authorization middleware, input validation, and ownership-based permission checks.

Real-Time Chat Application

May 2025

Tech Stack: Node.js, Express.js, React.js, Socket.IO, WebSockets, MongoDB

- Produced an instant messaging platform using Socket.IO and WebSockets for bidirectional, event-driven communication between connected users.
- Coordinated 4 real-time functions: connection tracking, message delivery, conversation persistence, and live interface updates.
- Improved message retrieval efficiency through structured MongoDB queries, asynchronous data handling, and paginated conversation loading.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering

Chandigarh University, Mohali, Punjab | 2021 - 2025 | **CGPA:** 6.86/10

Class XII (Senior Secondary)

Shivam Convent School, Patna, Bihar | 2019 - 2021 | **69%**

Class X (Secondary)

St. Joseph's High School, Patna, Bihar | 2019 | **68%**

CERTIFICATIONS

- React JS Certification – Infosys Springboard
- JavaScript Certification – Infosys Springboard
- Data Structures and Algorithms – PW Skills
- Full Stack Web Development – PW Skills

ADDITIONAL INFORMATION

- **Languages:** English, Hindi
- **Professional Strengths:** Problem-Solving, Analytical Thinking, Team Collaboration, Adaptability, Debugging, Ownership
- **Leadership:** Class Representative - coordinated 60+ students with faculty for curriculum and event planning
